

SWC-30XL - Vinyl Weather Cover for SPV-30XL

Specifications

Heavy 18 oz double knife-coated vinyl weather cover protects the pad from the elements when not in use and is sized to precisely fit AAE Model No. SPV-30XL Pole Vault Pad

- Gray standard, other colors available

Notes:

Dog snaps (#1) attached to the vinyl weather cover clip onto O-rings (#2) attached to the base units to secure the weather cover in place when the pole vault landing pad is not in use. All hardware is military spec. Pole vault pad has 34 attachment points used for both the weather cover and the skirted breather cover.

A velcro flap on each side closes the seam used to wrap the weather cover around the standard and prevents water and other potentially damaging elements from affecting the pole vault pad.
